#### About the event:

IIC of Siddhartha Institute of Science and Technology, Puttur organized a Webinar on “**Pitching Event For PCOS Developed & Linkages With Innovation Ambassadors For Mentorship Support**” on 17<sup>th</sup> February, 2022 in an online mode. In the first session Sahu sir discussed about the Innovation Ambassadors Training Program. He explained the key elements and defined the innovation and entrepreneurship ecosystem. How it is relevant to HEIs? The integration of entrepreneurship education for value creation was discussed.

these training programs will join as "IIC-Innovation Ambassador" and perform the role of mentor in their respective IICs, will provide support to other IICs as resource person in organising various programs related to innovation and startup and spread the message of innovation & start-up among the students and faculties. Further, there will be some incentive opportunities for Innovation ambassadors for the services offered during post training period and to connect directly with MoE's Innovation cell.

This program so many key elements said in that design thinking problem solution fit, innovation product market fit, business model, entrepreneurship -attitude behaving &skill ,startup & enterprise developments it is very useful for faculty and student very much for developing a successful entrepreneurship.

The event coordinator was **Mr. Thyagarajan Prasad**, Assistant Professor ECE in Department, Social Media Team Faculty Coordinator, SISTK, Puttur

“Innovation is change for the better” citing on Solving a real problem,

The innovation week celebration commenced on January 10, 2022. In this session Panel Discussion were held on Innovation, Human Values, & Sustainability by Shri Harshit Rathore, Co-Founder & CEO, Naccarc Robotics, Shri Vikash Mittersain, Founder & Managing Director, Nazara Technologies, Shri Shrikant Badve, Managing Director, Badve Industries. The session was Moderated by Prof. Anil D Sahasrabudhe, Chairman, AICTE. Prof Anil D Sahasrabudhe,

Chairman, All India Council for Technical Education (AICTE) said the Innovation week will inspire young innovators to solve the problems faced by society through constructive ideas and address upcoming challenges. Proposed symposium highlights key aspects for building innovation system like investment, mentoring etc. and we believe that this symposium will further encourage our educational institutes to focus on building innovation eco-system within their campuses. As India is witnessing exponential growth in terms of number of Start-ups, concerted efforts to create holistic innovation culture will pave the way for making Atmanirbhar Bharat and a 5 trillion-dollar economy as envisioned by Prime Minister Shri Narendra Modi, he added. This session was attended by 68 students and 48 Faculty members.

**SMART INDIA  
HACKATHON  
2022**

**WHAT IS SIH-2022**

Smart India Hackathon is a nation wide initiative to provide students with a platform to solve some of the pressing problems we face in our daily lives, and thus inculcate a culture of product innovation and a mindset of problem-solving. The first four editions: SIH2017, SIH2018, SIH2019 and SIH 2020 proved to be extremely successful in Promoting innovation, out-of-the-box thinking in young minds, especially among Engineering students from across India.

SMART INDIA  
HACKATHON  
2022

**WHAT IS SIH-2022**

Smart India Hackathon is a nation wide initiative to provide students with a platform to solve some of the pressing problems we face in our daily lives, and thus inculcate a culture of product innovation and a mindset of problem-solving. The first four editions SIH2017, SIH2018, SIH2019 and SIH 2020 proved to be extremely successful in Promoting Innovation, out-of-the-box thinking in young minds, especially among Engineering students from across India.

#### About the event:

The Orientation Session on IIC 4.0 & Features – MoE’s Innovation Cell on 24th January, 2022 was attended by Faculty of the IIC of SISTK. The resource person of the event was Dr. Dipan Sahu, Asst. Innovation Director, Ministry of Education’s Innovation Cell & AICTE, Government of India. He discussed about the vision and mission of the IIC 4.0. He informed that the IIC activity calendar the 1st semester (Q1 + Q2) was about to be over in the majority of institutions. He stated that since the Q1 & Q2 have been merged into 1st semester all IIC institutions were expected to submit activity reports in the IIC portal by the end of February 2022 for evaluation and publish score & stars till Q2. He also stated that MIC is always striving to improve the functionality and performance of the IIC network by bringing innovations in terms of new features and approaches in every new edition of IIC and elaborated on the new features and structures to incentivize participation of more HEIs and a better collaborative environment for sharing knowledge. Mr. Sahu discussed about the statistics of the number of HEIs who have joined the IIC movement and ARIIA rankings. The presentation was very lively and interesting. He spoke about the future goals of The Ministry of Education to make IIC a movement in all HEI’s in the near future and fulfill Prime Minister’s call for Atmanirbhar Bharat.

In continuity of 24<sup>th</sup> January orientation program Q&A session for HEI’s were organized zone wise. SCRO zone Q&A session was held on 28<sup>th</sup> Jan. 2022. In the Q&A session Mr Dipan Sahu answered the queries of the HEI’s coordinators.

#### About the event:

Institution's Innovation Council of SISTK organized an online workshop on "Entrepreneurship Skill, Attitude & Behaviour Development" on 16/02/2022 (from 02:30PM onwards) at the CSE seminar Hall in Siddartha Institute of Science and Technology, Puttur. The guest speaker of the event was **Dr.Shruti Bhargava Choubey Associate Professor & Dean Research & Innovation ,ECE, Convenor-IIC, Sreenidhi Institute of Science & Technology, Hyderabad.**

The speaker highlighted some of the key characteristics of an entrepreneur, which are Critical thinking helps us break down assumed models taken for granted by the status quo. When we design, our human instincts crave validation based on our prior knowledge, justification of our prior decisions, and support of earlier conclusions or beliefs.

### Overview

**Event Title: Electronix Expo**

**Objective(in 50 words):**

The main objective of the program is to expose the students and faculty members to the latest advancement, fundamental, VLSI test principles and DFT architectures in an effort to help them design innovative and better quality products that can be reliably manufactured in large quantity.

**Benefit in terms of learning/Skill/Knowledge obtained:** Students and faculty members will get exposure to innovations in the field of VLSI Testing.

**Program driven by** : 1)\_ MIC Driven 2)\_ IIC Driven 3)\_  Self Driven

**(tick appropriate option)**

**Month** : January, 2022

**Program /Activity Name** : **Innovations in VLSI Testing**

**Program Theme** : Innovation

**Date Duration (Days)** : 25.01.2022 ( 1 days) 11:00AM onwards

**No. of Student Participants** :48

**No. of Faculty Participants** : 15

**No. of External Participants, If any** : 0

**Resource Person name and details** : Dr. Pankaj Kumar Pal, Assistant Professor, National Institute of Technology, Uttarakhand

**About the event:**

IIC organised Session on Innovation in VLSI Testing. Since, Testing occupies 60-80% time of the design process. A well structured method for testing needs to be followed to ensure high yield and proper detection of faulty chips after manufacturing. Design for testability (DFT) is a matured domain now, and thus needs to be followed by all the VLSI designers. DR. Pankaj discusses the basics of testing and then its simulation. He also shared the latest innovations in this field.

In this event 48 students and 15 faculty members were participated. The session was coordinated by Dr. Savitesh M. Sharma, Professor, Dept. of ECE. The feedback from the students were taken. Students and faculty members showed their interest to attend this type of more events in future.

**Verification & Test**

**Verification**

- Specify correctness of design
- Performed by simulation, hardware emulation, or formal methods
- Perform once before manufacturing or responsible for quality of design

**Test**

- Specify correctness of manufactured hardware
- Standard process
  - Not performed unless pre-manufactured and during design
  - Not performed pre-manufacture assembly
- Not applicable performed on every manufactured device
- Responsible for quality of device

#### About the event:

IIC of Siddhartha Institute of Science and Technology, Puttur organized a Webinar on “**Pitching Event For PCOS Developed & Linkages With Innovation Ambassadors For Mentorship Support**” on 17<sup>th</sup> February, 2022 in an online mode. In the first session Sahu sir discussed about the Innovation Ambassadors Training Program. He explained the key elements and defined the innovation and entrepreneurship ecosystem. How it is relevant to HEIs? The integration of entrepreneurship education for value creation was discussed.

these training programs will join as "IIC-Innovation Ambassador" and perform the role of mentor in their respective IICs, will provide support to other IICs as resource person in organising various programs related to innovation and startup and spread the message of innovation & start-up among the students and faculties. Further, there will be some incentive opportunities for Innovation ambassadors for the services offered during post training period and to connect directly with MoE's Innovation cell.

This program so many key elements said in that design thinking problem solution fit, innovation product market fit, business model, entrepreneurship -attitude behaving &skill ,startup & enterprise developments it is very useful for faculty and student very much for developing a successful entrepreneurship.

The event coordinator was **Mr. Thyagarajan Prasad**, Assistant Professor ECE in Department, Social Media Team Faculty Coordinator, SISTK, Puttur

## **PCB DESIGN AND FABRICATION**

### **Overview**

**Objective (in 50 words):** The objective of this program is to introduce printed circuit board designing and fabrication where participants will get exposure to DesignSpark PCB designing industrial tool (open source) and different aspects of printed circuit board designing. Prior to PCB designing, participants will rig up the circuit on breadboard for better understating of circuit functionality. Breadboard wiring will help to identify few complications in wiring which could be overcome using PCB. Course Outcomes • Concept to Product development skill. • Exposure to Analog and Digital ICs. • Schematics capture, PCB foot print design skill using DesignSpark (Open Source) software. • Unit testing, QualityCheck and Circuit debugging skill development. • Clear understating of PCB fabrication process. • Exposure to methodology of innovative product development. • Apply techniques, skills and modern engineering tools necessary for engineering practice.

**Benefit in terms of learning/Skill/Knowledge obtained:** Concept to Product development skill. • Exposure to Analog and Digital ICs. • Schematics capture, PCB foot print design skill using DesignSpark (Open Source) software. • Unit testing, QualityCheck and Circuit debugging skill development. • Clear understating of PCB fabrication process. • Exposure to methodology of innovative product development. • Apply techniques, skills and modern engineering tools necessary for engineering practice.

**About the event:**

Department of Electronics and Communication Engineering, has organized three day Skill Oriented Training on “PCB Designing” in collaboration with INDIAN-TECH KEYS,Bangalore from 05.01.2022 to 07.01.2022 for II<sup>nd</sup> year ECE students ,120 students attended the program.

This program is Co-ordinated by Dr.Basavaraj G Kudumble,Prof Sharad Kulkarni and Mr.K.Sandeep Kumar of ECE department.

Dr.B.Saroja ,HoD-ECE has addressed the significance of this training program towards their academics.

Dr.M.Janardhana Raju, Principal has addressed the importance of PCB designing for students in their career development.

### Overview

#### Objective(in 50 words):

The main objective of the One week FDP on “Research Ideas in Image Processing & Communications” is

- To provide a forum to exchange views, ideas and the latest innovations in the image processing and communication fields.
- To inculcate the participants in the area of Predictive Analysis and Hyperspectral Image Applications
- To provide research ideas on Image compression, Noise removal, Image segmentation and Applications of Neural networks in image processing
- To introduce about the VLSI architecture for communications and Cryptographic Algorithms for IoT Applications
- To provide the future guidelines for research on Wireless Sensor Networks and Electro-Magnetic Interference/Compatibility (EMI/EMC)

**Benefit in terms of learning/Skill/Knowledge obtained:** On attending this FDP, the participants will gain knowledge on the following topics

- Predictive Analysis in Image Processing
- Overview of Hyperspectral Image Applications
- Deep Learning Techniques: Image Processing using CNN
- Image Processing in Health care Applications
- Noise Removal in Medical Images
- VLSI architectures for Telecommunications
- Recent Trends in image Compression
- Research Trends in Wireless Sensor Networks
- Modern Cryptographic Algorithms for IoT Applications
- Research ideas in Image Segmentation Methods
- Electro-Magnetic Interference/ Compatibility (EMI/EMC)

### Bridging Faults

- Bridging fault
  - Two or more normally distinct points (lines) are shorted together
- Two types of bridging faults
  - Input bridging

### Simulation Results <sup>[Hughes 86]</sup>

- How effective is SSF test sets for multiple stuck-at faults?
  - 14-input ALU 74LS181 circuit
  - 400 single stuck-at faults
  - 79,600 double stuck-at faults
  - 16 different test sets

Test Set	1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16
Length	12	12	12	12	12	12	12	14	14	14	14	17	35	124	135	352
Undetected	9	8	1	9	28	13	19	4	14	11	3	30	0	0	0	0
Double-stuck faults																

- Observation #1: Some shorter tests are **better than** longer tests
  - Smart test generation/selection is important
- Observation #2: **Most** double SA faults are detected by SSF test sets
  - But some exceptions (see next slide)
